

# Garden Variety News

April 2005

A publication of the Morgan County Master Gardeners Association, Inc.

Web site: [www.mcmastergardeners.org](http://www.mcmastergardeners.org)

*“Helping Others Grow”*

**Next Meeting**—Wednesday, May 2, 2005, 6:00 p.m., at the fairgrounds. Jason Kidwell, with Christopher Burke Engineering, will give a presentation on the importance of a watershed plan.

We will be sprucing up the fairground flower beds before our meeting.

---

## **MASTER GARDENER 2005 ANNUAL BUS TRIP**

A bus has been reserved to take a day trip to the Missouri Botanical Gardens on Friday, June 17<sup>th</sup>. Details of the trip will be available at the March meeting and at the Spring Garden Fest. We had talked about going to Meijer Garden in Grand Rapids, but the bus expense turned out to be too high for a day trip. Trena is working on a 2-day itinerary to Michigan that will include Meijer, Fernwood and Tabor Winery. She will report on this at the meeting.

---

## **2ND ANNUAL PURDUE UNIVERSITY MASTER GARDENER STATE CONFERENCE**

June 23, 24 and 25 are the dates set for the 2<sup>nd</sup> Annual Purdue University Master Gardener State Conference. Hosts will be the Lake County and Porter County Master Gardeners. Mark your calendars, registration materials will be coming soon!

## **SINGING FOR SPRING RARE PLANT DISCOVERED IN INDIANA**

The Nature Conservancy and ecologists with the Indiana Department of Natural Resources Division of Nature Preserves have been inventorying (botanical and natural) the watershed of the Blue River in Harrison, Crawford and Washington counties.

Although there are approximately 25 species of goldenrod native to Indiana, Short's goldenrod (*Solidago shortii*), was considered extinct until a population was found in 1939 in the Blue Lick Springs area of eastern Kentucky.

Previously, it had been found at the Falls of the Ohio (River) between Clarksville, Ind. and Louisville. It had not been collected from this location since 1860.

Short's goldenrod is a federally listed endangered species, one of only two plant species with this status in Indiana.

The rare plant was found in an area bordering the Blue River within Harrison-Crawford State Forest.

---

## INDIANA MUSEUM OF ART PERENNIAL PREMIERE

April 15-18, in the Madeline F. Elder Greenhouse, IMA's annual salute to Spring will arrive. Come see and buy the season's new perennials and start collecting unusual annuals. They will have horticulturists available to answer your questions. The gardens of the Oldfields Estate should also be in bloom. Members will receive a 20-percent discount on all purchases through April 30.
